

ACTA STEREOLOGICA

CONTENTS

Page

REVIEW ARTICLE

- Stereological analysis of skeletal muscle tissue, I. Eržen, M. Kališnik** 3

ORIGINAL SCIENTIFIC PAPERS

- Morphometric analysis of normal muscle biopsies: A statistical approach, P. Tankosic, C. Marchal, J. Floquet, C. Burlet** 33
- Morphometry of the small intramyocardial arteries in long term diabetic rats, C. Tașcă, C. Vasilescu, L. Ștefăneanu** 47
- Stereological determination of the pair correlation function of the centres of the nuclei in a rat liver using a thin section technique, K. H. Hanisch, D. König** 55
- Follicular, parafollicular and mast cells in mouse thyroid gland after antithyroid drug application, M. Logonder-Mlinšek, M. Kališnik, Z. Pajer** 67

SHORT NOTE

- An image analyzing procedure for the determination of mean muscle origins – Muscles of the interosseous membrane of the forearm, A. Schleicher, N. Moellers, J. Koebke** 77

ABSTRACTS ASSIA 85

Recent developments in quantitative fractography, E. E. Underwood	83
Feature extraction from QEM* SEM mineral maps, P. Gottlieb	84
Fractals in fractography, E. E. Underwood, K. Banerji	85
The stereological estimation of weighted first and second moment of particle volume, E. B. Jensen	86
A class of stochastic models for 'normal' spatial polyhedral tessellations, in which 3 faces meet at each edge, and 4 at each vertex, R. E. Miles	88
On edge effect in planar sampling, E. B. Jensen, R. Sundberg	89
A surface smoothing procedure for image reconstruction, I. Koch, R. S. Anderssen	90
Automated shape recognition of binary images using Fourier analysis, T. Pandich	91
Variance in images of woodlands — A problem and opportunity, D. L. B. Jupp, A. H. Strahler, C. Woodcock	92
Direct acquisition of backscattered electron and X-ray images for image analysis from an electron microprobe, D. R. Cousens	94
Linear CCD sensors for imaging, P. A. Heuer	95
Application of an image analyser to automated phase analysis of iron ore sinter, J. B. Lee	96
Microdensitometry and microcomputer video image analysis, L. Jarvis	97
Point counting stereology system I, R. P. Bolender	98
The measurement of S100 protein and neurone specific enolase (NSE) in melanocytic tumours by video image analysis, R. A. Williams, J. Rode, L. R. Jarvis, J. M. Skinner	100
Determination of ploidy in colon tumours using a video image analysis system, J. M. Skinner, L. R. Jarvis, F. J. Whitehead, R. Whitehead	101
Modelling dendritic growth of retinal ganglion cells, W. F. C. Blumer	102
Changes in the size of rat type II pneumocyte lamellar bodies following a hyperoxic insult, G. J. Baker, N. Berend, K. W. Cleland	103
Glomerular basement membrane thickness distributions in familial nephritis, G. F. Binns, P. L. Williams	104
Automatic image analysis of trabecular bone structure of selected stress regions in the head of femur, N. L. Fazzalari, B. Vernon-Roberts, J. Darracott	105
Numerical densities from surface densities, R. P. Bolender	106

OBITUARY

In memoriam HANS ELIAS, H. Haug	109
--	-----

BOOK REVIEW

Avtandilov GG et al., Quantitative morphology and mathematical modelling of myocardial infarction, O. Vraspir-Porenta	110
