ORIGINAL PAPERS	
The relative efficiency of point count estimators of areal cover, P.J. Davy, A.J. Jakeman	3
A relationship between the parameter κ of a von Mises distribution and intersection densities measured on two perpendicular test lines, K. Sandau	11
The particle number estimation and the depth of focus, Z. Pajer, M. Kališnik	19
Signed line intercept count, R. T. DeHoff	23
Error estimation in stereological determination of particle size distribution, M. Shahinpoor	27
Stereological and morphometric measurements in diagnostic histopathology: Statistical considerations, K. Selkäinen, Y. Collan	33
Grading of postcapillary venules in lymph nodes: Observer variation and reproducibility in subjective estimation and morphometric measurements, V. M. Kosma, K. Selkäinen, Y. Collan, K. Syrjänen, M. L. Aalto, A. Seppä	39
Stereological methods for quantitating synapses, J. J. Norden, J. A. Freeman	43
Quantitative serial sectioning analysis of the evolution of pore structure in the late stages of sintering of nickel powder, A. S. Watwe, R. T. DeHoff	47
Identification and volume percentage determination of mixed minerals by using digital image processing of microanalysis pictures, T. H. Lin, Y. X. Chen, X. X. Cai	51
Automatic detection of sphere distribution in thick section, K. Baba, K. Miyamoto, K. Kimura, H. Matsukuma, O. Koide	57
A reconstruction of chick embryos' optic cup and a study on the distribution of mitotic figures at 13th and 17th stages, F. Abadia-Fenoll, R. Calvente, R. Carmona, F. Abadia-Molina	63
Morphological quantitation by perfusion staining of the endocrine mouse pancreas, V. Bonnevie-Nielsen, L. T. Skovgaard	67
Reproducibility in morphometric assessment of positive staining for CEA in ovarian tumours, V. M. Kosma, Y. Collan, M. L. Aalto, A. Seppä, M. Rautiainen, K. Selkäinen	71
Quantitative morphological studies of the lung following inhalation of bacterial endotoxin, R. C. Lantz, R. Burrell, K. Birch, D. E. Hinton	75
Organization of contractile units in smooth muscle based on stereological analysis of dense body distribution, J. G. Walmsley, R. A. Murphy	79
An analysis of the medial thickness of small pulmonary arteries in victims of the sudden infant death syndrome, N. Wreford, K. Malafant, C. Hunter, G. Nelson	85
Stereology and morphometry as part of education in histopathology, Y. Collan, M. L. Aalto, V. M. Kosma, T. Kulju	89
Array geometry of stromal progesterone response, C. M. Wischik, A. W. Rogers	93
A stereological investigation of the rat exocrine pancreas after long-term alcohol consumption, V. Koko, A. Laban, J. Radovanović, M. Ristić	101
