

**ACTA STEREOLOGICA**

CONTENTS	Page
<b>Explanation of apparent paradoxes in Cavalieri sampling,</b> <i>M. García-Fiñana, L. M. Cruz-Orive</i> .....	293
<b>Shear behaviour of rock joints: prediction of damaged areas,</b> <i>J. Riss, S. Gentier, D. Hopkins</i> .....	303
<b>Connectivity evolution of 2D random distributions of disks and ellipses: application to polyphasic crystal rock distribution,</b> <i>S. Sammartino, P. Sardini, E. Moreau, G. Touchard</i> .....	309
<b>Simulation of fibre processes, application in fractography,</b> <i>J. Šimák, V. Beneš, H. Lauschmann, V. Čejka, M. Mašata</i> .....	315
<b>Atomic positions from high resolution transmission electron microscopy images of grain boundaries,</b> <i>J.-M. Chaix</i> .....	321
<b>Estimation of errors due to phase boundary position in image analysis,</b> <i>J.-M. Chaix, J.-M. Missiaen, J.-P. Jernot</i> .....	327
<b>Estimation of plant root lengths during growth,</b> <i>D. Wulfsohn, J. R. Nyengaard</i> .....	335
<b>A planar model of hepatic blood flow potential,</b> <i>H. Scherberger, O. Leder</i> .....	343
<b>Granule cell and Purkinje cell number in human cerebella from young and old men: a stereological study,</b> <i>B. B. Andersen</i> .....	353
<b>Remote quantitation in DNA image cytometry,</b> <i>G. Haroske, A. Böcking, K. Kayser, K. D. Kunze, W. Meyer, M. Oberholzer</i> .....	357
<b>Volume-weighted mean nuclear volume in dysplastic glands from the ventral prostate of rats treated with cadmium chloride, and resembling human prostatic intraepithelial neoplasia,</b> <i>L. Santamaria, R. Martín, J. J. Martín</i> .....	377
<b>Stereological analysis of pathological changes in the blood-vessel wall after experimental induction of hypercholesterolemia,</b> <i>V. Semecký, A. Gojová, P. Nachtigal, K. Langrová, V. Beneš</i> .....	383
<b>Stereological and morphometric studies of mammalian myocardium: a review,</b> <i>M. Kališnik, O. Vraspir Porenta, T. Mattfeldt</i> .....	389
