

ACTA STEREOLOGICA

CONTENTS	Page
REVIEW ARTICLES	
Basic considerations for measuring in images, <i>D. Vollath</i>	113
Software solutions to problems in stereology, <i>V. Howard, S. Eins</i>	139
ORIGINAL SCIENTIFIC PAPERS	
A comparison of quantitative methods of shape characterization, <i>A. G. Flook</i>	159
The estimation of errors in evaluating sphere size distribution due to variations in section thickness, <i>P. E. Rose</i>	165
Geodesic convexity, <i>F. Maisonneuve, C. Lantuéjoul</i>	169
Optimization of the interference layer metallography for automatic image analysis and its application to high temperature alloys, <i>K. Schmidt, H. Hoven, K. Koizlik, J. Linke</i>	175
Three-dimensional orientation and roughness of surfaces, <i>M. Fripan, H. E. Exner</i>	181
FORTHCOMING MEETINGS	189
